

# HOW TO STORE PESTICIDES?

[www.croplifea.org](http://www.croplifea.org)

-  Buy only from authorized dealers.
-  Buy pesticides according to your needs to reduce storage time and surplus.
-  Comply with all local laws regarding storage.
-  Pesticides must be stored safely out of the reach of children and unauthorized persons. Also out of the reach of animals.
-  The storage place should be dry and well ventilated. Powder presentations should be stored on the top shelves, while liquids should go on the bottom.
-  Check stored pesticides regularly to prevent spills.
-  If a spill occurs, follow label directions for proper cleanup and disposal.
