HOW TO STORE PESTICIDES?

- Buy only from authorized dealers.
- Buy pesticides according to your needs to reduce storage time and surplus.
- Comply with all local laws regarding storage.
- Pesticides must be stored safely out of the reach of children and unauthorized persons. Also out of the reach of animals.
- The storage place should be dry and well ventilated. Powder presentations should be stored on the top shelves, while liquids should go on the bottom.
- Check stored pesticides regularly to prevent spills.
- If a spill occurs, follow label directions for proper cleanup and disposal.
